Artistic Mural

Take advantage of great visibility and show off your creativity by using one of our three artistic murals now available on a yearly basis! These prestigious sites, seen daily by thousands of people driving the downtown core of Montreal, will set you apart from traditional OOH advertising.

These strategically located sites, offering large format artistic murals paired with a regular poster, will allow you to reach your target group. The poster element of this combination allows for branding and is enhanced by an artistic mural which allows for creativity and unique presence like no other in the city!

The artistic mural portion must be creative execution only and may not contain any logo, branding or character linked to a brand. These elements may only be seen on the regular posters. The regular display conditions apply to the poster portion only.
